HIGHER SECONDARY - 12TH	2018-2019
Jyoti Nivas Pre-University College	Percentage: 67 %
SECONDARY - 10TH	2016-2017
Mahadevi Birla World Academy	Percentage: 80%

SKILLS & EXPERTISE

Technical Skills	C++
Web Technologies	HTML , Tailwind CSS, Javascript, Express, React, Node
Database	MongoDB
Tools/Platforms	Git/Github, VsCode, Canva
Soft Skills	Communication Skills, Team Collaboration, Problem Solving

PROJECTS

Real Estate App **MongoDB, Express, React, Node**
This project is a robust real estate web application built on the MERN (MongoDB, Express, React, Node.js) stack. It provides a comprehensive solution for users to explore real estate properties, create and manage property listings, and search for properties with advanced filtering options. Designed with a focus on security and user experience, the application includes advanced authentication, Google OAuth integration, and protected routes for sensitive actions such as managing user profiles and property listings.

Personal Blog Website **Html, CSS, Javascript**
Created a responsive personal blog using HTML, CSS, and JavaScript. Worked with cross-functional teams to develop and deploy scalable, user-friendly web solutions, adding interactive features like navigation menus and sliders for an improved user experience

House Price Prediction **Pandas, Matplotlib, Scikit Learn Dataset**
Developed an XGBoost regression model to predict house prices with 90% accuracy on a Kaggle dataset of 20,640 entries. Used graphical and numerical techniques to enhance accuracy, ensuring precise predictions for real estate professionals and home buyers.
